

Synapse

The identity system for a self-hosted, self-organizing knowledge base.

BRAND GUIDELINES · V1.0 · 2026

THE PRODUCT

Raw documents, an organized mind.

Synapse turns loose files into an interlinked wiki — a living knowledge graph of nodes and edges, ingested and connected by AI. Self-hosted, self-organizing, calm by design.

Neural connection

Linked notes

A hidden “S”

One mark, three readings held at once

01 · SYNAPSE

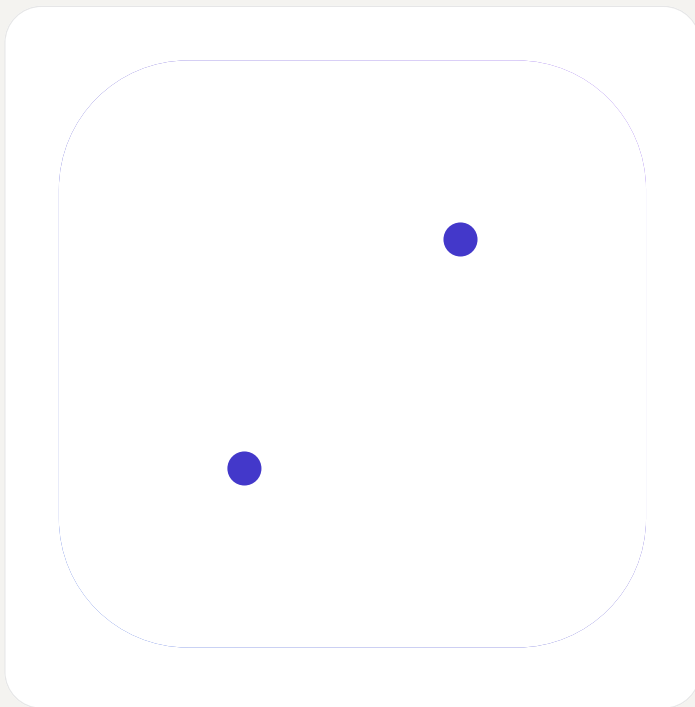

Neural connection

Two terminals fire across a central junction — a signal passing between them.

02 · GRAPH

Linked notes

Nodes and edges, with satellites branching off — a knowledge graph mid-growth.

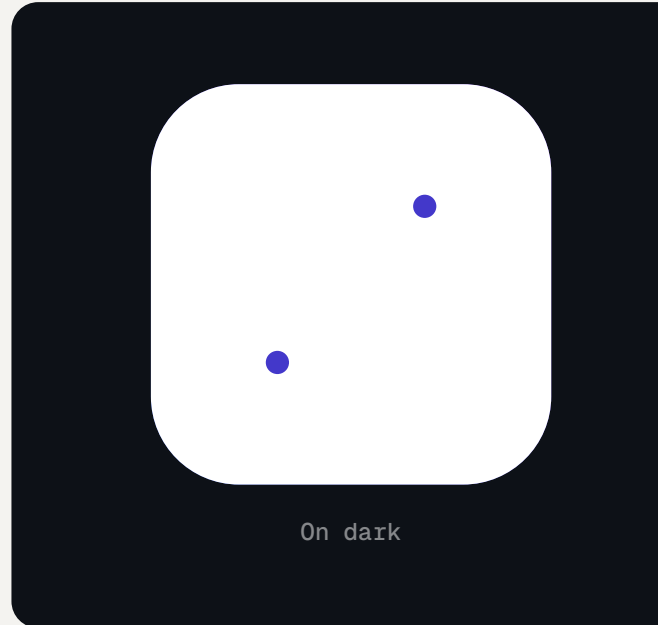

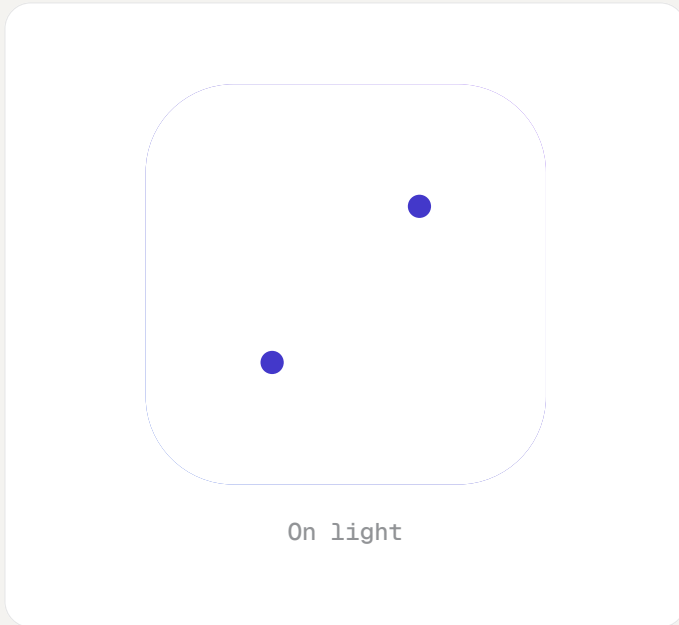

Corner radius 22% · squircle

Anatomy of the m

- 1 Primary nodes**
Two anchor ideas, each with an indigo
- 2 Central junction**
The smaller node where the connection
- 3 Edges & satellites**
Rounded-cap strokes to smaller node
- 4 The S path**
The bold connecting stroke reads as t

The app icon

DARK MODE

An icon that lives on the dark home screen.

The light gradient tile can glare against a dark OS. The dark variant drops the background to a deep indigo-black and lights the mark in a brighter blue → violet gradient, so it reads as a signal firing in the dark.

bg #0B0E20 → #211A4F

mark #58A6FF → #C084FC

SMALL SIZES

A favicon that survives 16px.

Below ~24px the satellites and inner cores collapse. Use the simplified variant — three nodes, one thicker S, no satellites — for favicons, tab icons and disabled states.

Color

Blue

#1D4ED8

Indigo

#4338CA

Violet

#7C3AED

Accent · light

#2563EB

Gradient runs diagonally, bottom-left → top-right. Keep any lockup to two or three colors — never rainbow

TYPOGRAPHY

Geist

Regular 400

Medium 500

Semibold 600

Wordmark: Geist Semibold, letter-spacing -0.02em . Mono is reserved for labels, code and metadata.

Monochrome & single ink

White knockout

S

Do & Don't

✓ DO

Use the master icon at 48px and above.

Switch to the simplified variant below 24px.

Keep the gradient bottom-left → top-right.

Give the icon its clear space.

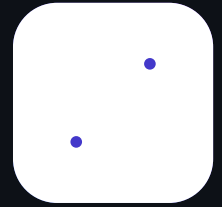

✗ DON'T

Don't rotate or reflect.

Don't add text inside.

Don't recolor the master.

Don't stretch, skew or distort.

Synapse

Connect everything.
